

SOME DOS AND DON'TS

We are happy for visitors to smoke when visiting Deerton, but please DON'T leave cigarette ends etc behind: take them away with you.

DO bring children with you if you wish to but please DO make sure that an adult is caring for them.

Pet dogs are welcome but please DO ensure that you clear up after them and DON'T let them off the lead.

Bulbs and seeds may be planted on loved one's graves but please DO ensure that they are local, native woodland species.

Please DON'T leave ornaments or wired flowers, plants in pots or other unnatural items on graves. We will remove them.

Nettles are part of the natural flora but we are endeavouring to keep them out of the burial areas through eco-spraying. Should you wish to help us DO pull them out but DON'T forget to wear protective gloves!

DO trim the grasses on graves if you wish but please remember that Deerton is a natural burial ground not a lawned cemetery.

DO feel free to sit on one of the benches with a drink and a sandwich while you reflect and remember your loved ones. But DON'T forget to take your litter home!

To all our visitors THANK YOU for your support in helping us to keep Deerton looking natural and lovely.
